

Help Your Child Succeed by Discussing and Tracking Attendance

Studies have shown that students who have high attendance rates are more successful in school. Many parents are unaware when their child misses class but that information is readily available to parents through Infinite Campus.

Once logged into Infinite Campus on the web, parents can check attendance by selecting the "Attendance" tab on the left. Parents can also check attendance by downloading the Infinite Campus app. There is a parent and a student version of the app and both can be downloaded through the Apple App Store or Google Play Store. When logging in for the first time on the app, enter "207" under district and select "Illinois" from the state menu to find "MAINE TOWNSHIP." The username and password to log in are the same as the browser version. Once logged in, parents can select the "Attendance" tab on the left from the menu to check attendance.

Please know that parents may see higher attendance totals for a class than expected. These totals are by period, not class. Absences for classes spanning multiple periods, like 3A and 3B, would count for two period absences per class absence.
