

Dear Maine Township Community:

Although there will be modifications to the “way” we serve our food during this time, we want to assure you that the quality of “what” we serve will not change. We will be preparing meals daily, from fresh, high quality ingredients that adhere to Quest’s Food Philosophy. Modifications to the way we serve are outlined below:

Pre- Ordering with My Meal Order

Quest has made modifications to ensure your meal is served in the safest and freshest way possible. Because meals will be primarily served in a remote environment, the District is using an online ordering system (My Meal Order). Below are the steps for ordering weekly meals.

- Please create an account with My Meal Order – Instruction attached. This will allow you to select the daily meals.
- Meal orders must be submitted by Thursday at Midnight for the next week.

Meal Distribution

Quest and D207 have partnered up to ensure that our students have a fresh breakfast and lunch every day.

- Meal Distribution will take place at all three schools in D207 between 2pm and 4pm on Tuesdays and Thursdays each week
 - Maine East bus concourse
 - Maine South main entrance
 - Maine West bus concourse
- On Tuesdays you will receive a breakfast and lunch for Wednesday and Thursday
- On Thursday you will receive a breakfast and lunch for Friday, Monday and Tuesday
- Meals will be labeled with the student’s name and ID number

Safety & Sanitation Enhancement

- Posting appropriate signage to maintain social distancing.
- Wearing proper personal protective equipment (PPE) including gloves and masks.

Quest Employee Safety and Sanitation Practices

Quest requires all employees, vendor or visitor, volunteers or guests to abide by the recommendations provided by the CDC which include:

- Staying home if sick.
- Checking temperatures daily.
- Implementing daily health checks for symptoms.
- Designating an employee to monitor that social distancing and increased sanitation guidelines are adhered to.
- Redesigning workflows to ensure social distancing in our kitchens and workspaces.
