

Moving Into Hybrid In-Person Models for School

An email was recently sent to all parents related to moving into hybrid in-person models for school which includes:

Beginning November 9, all students choosing to attend in person will attend in person four days a week with the next week off to allow the other group of students to attend four days.

By January 5, if we are able to operate the first phase of the Hybrid model successfully, we will double the amount of time that students are in attendance, with each student who chooses to attend, attending four days every week in morning and afternoon shifts of the A/B groups.

Maine East Teacher Named Among the Best in the State

Maine East Director of Choirs Kate Lee has only been at Maine East since the fall of 2018 but during that short amount of time she has had a major impact at the school.

Her influence was recognized by the Illinois State Board of Education when she was recently named the 2021 Outstanding Early Career Educator. Kate is one of just five teachers in the state to earn state-wide recognition from ISBE.

New Meal Distribution Program Includes a Variety of Offerings

The district is moving to a new meal program that includes a wide variety of meal options and a process to make it easier for families to pick up meals. The only request at this time is for any family that plans to participate in the program to complete a short survey that will allow the district to make the pickup process easier (if they have not already completed the survey).

El distrito está cambiando hacia un nuevo programa que incluye una amplia variedad de comidas y un proceso más fácil para que las familias puedan recojer las comidas. Lo único que se les pide en este momento es que cualquier familia que planeee participar en el programa complete una breve encuesta que le permitirá al Distrito facilitar el proceso de recogida.

District 207 Virtual Options Fair has Started

The Maine Township High School District 207 Virtual Options Fair started this week. There are amazing opportunities for Maine East, Maine West and Maine South students interested in associate, certificate and trade apprenticeship programs. Students should watch their email for more information throughout the month.

Students Build Home for Habitat for Humanity

Students at Maine East who took the Math 2 in Construction class last year built the frame of a house that was recently delivered to Habitat for Humanity.

This effort combines learning with volunteerism and has proven to be an effective way to teach math.
