DEVELOP SYSTEMS	<ul style="list-style-type: none"> ● Participate in the AASA's Learning 2025 Network to

TO IMPROVE THE
PREPAREDNESS AND
RESPONSE EFFORTS OF
THE DISTRICT

*advance student-centered, equity-focused,
future-driven education*

- Document Management System - allows the district to manage documents electronically, preventing the need to pass paper back and forth between families and schools.
- Network Security Operation Center - with many working outside of the district's networks, we aren't able to secure their traffic as we normally would. Also, we require the ability to monitor anomalous activity on staff devices when they may or may not be connected to our internal networks
- Secure Signature Provider - Allows parents of students with IEPs to attend remote meetings and sign required documents without having to physically come into a school to sign required documents.
- Integrate Special Education software with the district's Student Information System
